EDUCATIONAL HISTORY

KodeGo - Bootcamp
2024

Full Stack Web Development

Completed intensive full-stack development training, mastering frontend and backend technologies. Built and deployed dynamic web applications, gaining hands-on experience with databases, backend tools, and deployment strategies.

Udemy
2024

Full Stack Web Development

Successfully accomplished a self-paced Full-Stack Web Development program on Udemy, honing skills through immersive, project-based learning. Engineered responsive, user-centric applications while gaining practical experience with APIs, databases, and deployment technologies.

Isabela College of
Arts & Technology
2014- 2017

Bachelor of Science in Marine Engineering

Earned a Bachelor of Science in Marine Engineering, combining rigorous academic training with practical onboard experience. Developed a strong foundation in marine propulsion systems, vessel operations, and maritime safety standards, preparing for real-world challenges in the global shipping industry.
